# About Us

*Our food production factory, known as a brand Liana is located in the village of Raslavice – in a charming location southeast of the Čergov Mountains, in the northeastern part of Slovakia on the southern edge of the Bardejov district. We are located on Lopuchovska Street, near the main road connecting towns of Prešov and Bardejov.*

*Liana was founded in 1994 by Mr. Imrich Goliaš in cooperation with a close family and we still operate as a successful family business company. We initially started in the rented premises, later we build up our own factory, gradually re-established and presently we are a medium-sized company, which has found its place in the local, domestic and international market.*

*Thanks to the new technologies and technological progress, we started with the production of our main product – Mineral fizzy drink in powder, which won the Consumer Choices Award 2014 in the category Beverages in powder. Subsequently, we expanded our activities and over the years we gradually expanded our assortment with bakery products, powdered drinks, products for preserving and seasoning and assortment of household chemistry. Our production and sales potential was further expanded with the possibility of HoReCa packaging in addition to the retail packaging.*

*At present, our production plant is equipped with several production technologies with the possibility of mixing and packing various powdered food products in weights from 2 grams to 25 kg. Upon agreement, we offer packaging services and private label products based on your requirements.*

*With the introduction of HACCP – Hazard Analysis of Critical Control Point, we further increased the safety of our products in 2007, which is expected from the manufacturer to ensure consumer health protection.*

*We have implemented and put in place system controls to ensure the traceability of the raw materials and their quality. We believe that such a measurements, together with a high standard of hygiene and good working practice, are essential elements to perfectly secure safety and traceability of our products.*

*We comply with Slovakian and European legal standards and guidelines, as well as environmental and ethical standards. Our employees are committed to quality, training and good working practice to ensure 100% quality and satisfaction to our consumers.*

*Our marketing department constantly communicates and gives advice directly to our customers in several ways on the social network Facebook, where our company can be found under: Food production Liana; and as well as by live chat option implemented on our website: [www.lianasro.sk](http://www.lianasro.sk) Through the website, we are constantly adding numbers of attractive recipes, where are currently over 500 recipes and still counting.*

### GOLD CREAM Liana 40 g

Creamy powder suitable for preparing vanilla creams, puddings, curd fillings, whipped cups with fruits, corpuses and so. Gold cream is exceptional with its aroma of vanilla and a slightly yellow color that makes every dessert so special.

**Simple preparation:**

1 pc of Gold Cream Liana + 1/2 l of milk

You can find 12 recipes on the reverse side of product.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Available in HoReCa	Shelf life (in months)
M40017	8586021040017	32	32	YES	18

### PUNCH GLAZE ICING Liana 25 g

The soft pink color of the punch glaze icing creates the beautiful look of each punch dessert while giving it a pleasant punch taste. You can find 2 recipes on the reverse side of product.

**Simple preparation:**

1 pc of Punch glaze icing 25 g + 200 g powdered sugar + 5 tbsp water + 1 tsp of oil.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Available in HoReCa	Shelf life (in months)
M00458	8585001200458	24	408	YES	18

### LEMON GLAZE ICING Liana 25 g

Lemon glaze icing is ideally suited for various kinds of cakes, whether poppy, nuts, etc. Its lemon flavor has an excellent aftertaste and curd fillings smells nice instead of using chemically treated lemon.

**Simple preparation:**

1 pc of Lemon glaze icing 25 g + 200 g powdered sugar + 5 tbsp water + 1 tsp of oil.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Available in HoReCa	Shelf life (in months)
M00359	8585001200359	24	408	YES	18

### GINGERBREAD BAKING POWDER Liana 20 g

Gingerbread raising powder contains a combination of spices which with its aroma and taste enhances every cake. Product has an ideal composition for any gingerbread. The mixture of up to 9 types of spices contained in our Liana Gingerbread Powder is carefully prepared and selected by ourselves so each gingerbread taste is really excellent. Content of 1 bag is sufficient for 500g flour.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Available in HoReCa	Shelf life (in months)
M00687	8585001200687	24	432	YES	18

### BAKER'S AMMONIA Liana 20 g

A special baking powder, otherwise called Baker's Ammonia, which was formerly known as sal-volatile or salt of hartshorn. It is added to the dough and is decomposed by heat to carbon dioxide, ammonia (the smell that disappears during baking) and water, creating bubbles in the dough and the dough grows beautifully and is easily processed without the use of fat. After baking the dough is hard, but after filling with jam or filling it softens beautifully after a few hours and is light, durable and soft without any unnecessary fat. Therefore, desserts made from Baker's Ammonia are less caloric and yet very tasty.

M00038	8585001200038	24	432	NO	18

### PORK GELATINE IN POWDER Liana 20 g

Unflavoured and odourless packaging of pork gelatine in powder form. Suitable for desserts, cakes, aspic, jelly, thickened mayonnaise, salads, etc. Please avoid to cook gelatine !!!

**Product can be used twice:**

1. as gelatine – jelly, cakes, cup cake, aspic, etc.
2. as hardening agent – to harden whipped cream, yoghurt, creams, fillings and thickened mayonnaise salads.

Did you know that gelatin in this product is of animal origin (pork gelatin)? Gelatin is the source of the "youth elixir" collagen that restores and maintains condition of the skin, teeth, hair, articular cartilage, tendons, vessels and all tissues. In childhood and adolescence is essential for the bone formation because it forms a calcium storage network and protects the joints from arthrosis in adulthood. Gelatin therefore serves not only to protect articular cartilage and ligaments from premature wear, but also for serves for their regeneration and restoration.

Expert recommendation: 1 teaspoon of powdered gelatin mix daily eg. into yogurt or milk or water and drink or eat. If you already have a problems, you should feel soon relieved, or, by doing so, you should avoid to have such a problems.

# Cream Stabiliser Liana 100 g

- cake filling, desserts filling
- tasty cup cream, cupcakes
- ice cream
- as a mirror glaze for cakes or mini desserts

Powder mix for quick preparation of light, tasty flavoured whipped creams and fillings.

Preparation is quick and easy. Cream is ready in 3 minutes. Firstly, dissolve and stir Liana cream stabiliser in water or milk and mix into a half-way ready vegetable based whipped cream. This cream is suitable as a cake filling. Using a heavy cream and whipping cream in powder form instead, it makes the cream softer and more suitable for jars. Then you do not add water, but mix cream stabiliser directly in milk or cream. In the summer, just freeze the finished cream and you have a fantastic homemade ice cream.

Liana cream stabilisers for exclusive desserts, ice creams, cakes and cakes with unmistakable taste. You can create an exclusive candy bar for various occasions. For even more interesting variations you can also add different types of fresh, frozen or canned fruit to the fillings.

### **EXTRA DARK COCOA POWDER 10-12% OF FAT Liana** 1 kg

*Cocoa powder with a fat content (cocoa butter) of 10-12%.*

Our the darkest cocoa powder in our offer. It is mainly added to the dough that gives a beautiful dark brown look. It can also be added to creams and fillings. The advantage is a smaller dosage, where you use a smaller amount to achieve amazing extra dark color.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Shelf life (in months)
G01141	8585001201141	1	12	24

**DUTCH-PROCESSED COCOA POWDER 10-12% OF FAT Liana 1 kg**

*Low fat cocoa powder with a fat content (cocoa butter) of 10-12% with excellent taste and colour.*

Cocoa powder is a product which is produced by pressing the cocoa liquor where 45% of cocoa butter is separated and the rest is so called cocoa cake, which contains about 10 to 12% of cocoa butter. After grinding the "cake", cocoa powder is formed. The color of this cocoa is more brown. It is suitable for baking, cream preparation etc.

Catalogue	EAN	Quantity per Packaging	Quantity per Carton	Shelf life (in months)
G01455	8585001201455	1	12	24

**DUTCH-PROCESSED COCOA POWDER 20-22% OF FAT Liana 1 kg**

*High fat cocoa powder with a fat content (cocoa butter) of 20-22%.*

The color of the cocoa has a reddish tint. It is suitable for creams, fillings, hot chocolate and toppings.
